

1810 N. 27th St. NSP Renovation

1810 N. 27th Street has been demolished and a new, 1,100sq. Ft. home with 3 bedrooms and 2 baths is under construction.

Construction is being done by the Tippecanoe School Corporation Building Trades. Students from Jefferson Harrison and McCutcheon High Schools are involved in this project. The building trades program constructs a house annually. Not only will the Vinton neighborhood see a new house completed, the project will be used to train new workers in home construction. The project is being supervised by a TSC teacher who has been over-seeing such projects for over 15 years. The building trades program is renowned for the quality of its work and attention to detail.

Built on a crawl space, the house will feature several energy-efficient components such as Energy-Star windows and exterior doors, extra insulation, Tyvek wrap, "Hardy Plank" siding which is more durable than aluminum or vinyl siding, Energy-Star appliances and a high efficiency gas furnace and water heater. Completion is scheduled for Spring 2011.
